Pillows & blankets are provided.

Refrigerator - Please do not overload the refrigerator door with can drinks. Please do not reset the refrigerator setting to a low setting for a "quick cool" for contents. This can cause problems with the refrigerator and restricts the refrigerator from cooling properly. If a service repairman is required, then the charges will be deducted from the guest's security deposit. Do not place any bait, unwrapped seafood in the refrigerator. Bait must be kept outside in coolers.

Washer/Dryer - Remove dryer lint after each use. Please thoroughly shake out the sand from beach towels and swimsuits before washing/ drying them in the washing machine/dryer. Sand causes problems in washing machine pumps and dryer vents. In the event a repairman is required due to misuse. The charges will be deducted from your security deposit.

Supplies - A starter supply of trash liners, toilet tissue and paper towels are included with each unit. However, guests will need to provide their own laundry detergent, additional paper products, toiletries and any other household supply items for their stay.

Trash Disposal & Pick up - Place trash in trash bags and put them in the appropriate trash containers located in the ground bin near the road in front of the unit. (Remove Seashell) Trash pick up is offered during the week. Please review trash pick up days during your vacation stay. Trash pick up occurs Monday, Wednesday, and Friday in Summer months, and Monday and Friday in Fall and Winter. There is a recycle container in the back of the resort for aluminum cans, if you choose to recycle them.

Owner Closets & Storage Areas - Some storage areas are locked and are not available for guest use. Please respect these areas and do not attempt to open them. Any tampering will result in a charge against your security deposit.

Golf Cart - You will find the golf cart key hanging on the key holder inside the bungalow beside the door. Be sure to read all of the golf cart rules in your contract & go over them with everyone in your party. Golf cart rules are strictly enforced by Venture Out Resort Security. The golf cart should stay charged for the length of your stay. Please remember to plug it back in to the electrical cord before you leave to go home.
